IBM ServicePac® SELECTION GUIDE

Nordic Edition 11th May 2010

This Guide are for reference purpose only - p/n's and prices may be changed without any notice if subject to errors or announcement changes
IBM ServicePac® is no longer subject to the Stock Rotation process and is therefore not returnable.
IBM ServicePac® is not returnable, and in case of wrong ordered P/N, exception-swap to correct P/N will only be considered within a 60 day period from the date of purchase, subject to an admin charge of 8% of original invoice amount. This service announced 1st of March 2008.
A ServicePac are only valid in that country where the ServicePac has been purchased
Attention: For taxation reasons, all ServicePac orders must be processed and invoiced in the service provision country.
ServicePac for Warranty Service Upgrade should best be ordered at the same time as the hardware. In order to avoid loss in coverage-value, it's recommended that purchase is done as close as possible to the Warranty start date, that due to the fact that Warranty Service Upgrade begins and runs in parallel to normal Base Warranty. Service and typical response time are provided within 100 Km of an IBM Service Location unless specified differently due to local limitations.
IBM Onsite Repair (IOR) limitations
The customer must provide fault information to IBM at the time of the customer call placement and provide diagnostic information to the On-Site Technician. In extreme situations IBM may require to remove the Machine to complete the repair. IBM reserves the right not to deliver service in Business premises (including Home / Office) if not found to be appropriate to safety or Electro-Static Discharge protection.
The Customer must provide a suitable working area to allow disassembly and reassembly of the Machine. The area must be clean, well lit and suitable for the purpose.
For further details refer to the General Information section or the PLET (Product annoucement Letter) @ www.ibm.com/common/ssi

General Information Section

ServicePac® Policy

Business Partners will know that IBM ServicePac® is now entirely electronically handled. As ServicePac® is available "On Demand" there is therefore no requirement for Business Partners to maintain a ServicePac® stock
Inventory Adjustment (Stock Rotation) is not available for ServicePac® and IBM does not accept ServicePac® returns from Business Partners
It is important, when ordering a ServicePac®, that the correct ServicePac® Part Number is specified. An incorrectly ordered ServicePac® may not subsequently be returned to IBM.
Where an incorrect ServicePac® Part Number is ordered by mistake, you may, with effect from March 1st 2008, - correct the order within 60 days of date of purchase subject to an administration charge.
This charge will be 8% of the original amount invoiced by IBM for the incorrectly ordered Part Number.

PLEASE NOTE: If you have received this Selection Guide as an attachment via email, please be aware that ServicePac pricing can change!
The most up to date pricing can be found in SPST (ServicePac Selection Tool) on the internet.
ServicePac Selection Tool: http://www-01.ibm.com/sales/gss/spst/servicepac/extProductSelectorWWW.do

PLEASE NOTE : The Customer or Business Partner must register the IBM ServicePac to activate the service.
In order to receive the service the ServicePac must be activated, which will also limit any delay to entitlement verification during a call for assistance.
WebSite for ServicePac Registration (SPRT):
http://www-03.ibm.com/services/eservicepac/ControllerServlet.wss

All IBM Warranty and Maintenance terms are defined in the Hardware Maintenance Operational Guide, available at the following link:
http://www-5.ibm.com/services/europe/maintenance/ from there select: Operational Guides

Service Delivery Method (SDM)

Customer Carry In Repair (CCR) - Repair activity performed at IBM Service Centre
If the product cannot be fixed with the help of remote support, the customer is responsible to disconnect and bring the failing machine to an IBM designated location (depot), from where the machine will the machine will be sent on to the IBM Service Centre. When the product is repaired by IBM, the customer is then responsible to take the machine back and reactivate it. Customer 'carry in' products are accepted during local depot opening hours (Monday to Friday) only.

IBM Courier Repair (ICR)) - Repair activity performed at IBM Service Centre
If the product cannot be fixed with the help of remote support, an IBM designated courier will collect and bring back the repaired machine to the customer site.
The customer is responsible to disconnect and reactivate the machine.

Customer On-site Exchange (COE)- Product exchanged by Customer
If the product cannot be fixed with the help of remote support, a machine in good working order is sent to customer site for replacement by customer.
The customer is responsible to disconnect, reactivate and return the replaced machine to IBM in accordance with IBM's instructions. If customer does not return the defective machine, if IBM so instructs, within 30 days of receipt of the replacement product, IBM may charge the customer for the replacement.

IBM Courier Exchange (ICE) – Product exchanged at Customer site
If the product cannot be fixed with the help of remote support, the failing machine is exchanged for a machine in good working order by an IBM designated courier.
The customer is responsible to disconnect and reactivate the machine.

IBM On-site Exchange (IOE) - Repair activity performed at Customer site
If the product cannot be fixed with the help of remote support, the machine is exchanged for a machine in good working order by an IBM representative at customer site.

IBM On-site Repair (IOR) - Repair activity performed at Customer site
IBM will perform problem determination remotely. The customer is requested to work with IBM during problem determination and to perform those activites that IBM may request. The problem determination aim is to identify whether the problem resides with the customer's IBM machine or with other machines or software. If the problem determination result is that the customer's IBM machine is failing, and non-functional, then a service technician will be dispatched to the customer's location, to perform remdial actions and replace any defective parts as required.

IBM On-site Repair Limited (IOL) - Repair activity performed at Customer site, excluding CRUs
The service is the same as for IOR but the customer is responsible for replacement of Tier 1 CRUs.

Coverage Hours description
5x9 coverage :
5 days per week (Monday to Friday, excluding public & national holidays), 9 hours per day

5x9x4 coverage :
5 days per week (Monday to Friday, excluding public & national holidays), 9 hours per day, with an onsite response target of 4 hours after problem determination has been completed.

5x11 coverage:
5 days per week (Monday to Friday, excluding public & national holidays), 11 hours per day.

6x18 coverage:
6 days per week (Monday to Saturday, excluding public & national holidays), 18 hours per day.

7x24 coverage :
7 days per week by 24 hours (365 days a year).

7x24x4 coverage :
7 days a week by 24 hours, with an on site response target of 4 hours after problem determination has been completed.

Committed Service Levels
3 Yr IOR 7x24 8hr CS
IBM Onsite Repair, 7 days a week by 24 hours, with a commitment to fix the reported problem within 8 hours.
The 8 hour Fix Time (FXT) is the period of time between the customer's service request registration in IBM's Call Management System and restoration of the failing machine to operational readiness

IBM Implementation ServicePac for a broad range of System and SoftWare solutions

****Only available in Denmark & Sweden****
For further information refer to Plet R44631F or the Operational Guide www.ibm.com/services/Europe/maintenance
Implementation ServicePac data sheets and contact information can be found on Partnerworld at the following links:
https://www-304.ibm.com/jct09002c/partnerworld/mem/services/dk/ofimp.html
https://www-304.ibm.com/jct09002c/partnerworld/mem/services/dk/ofstoimp.html

IM013 - IBM Implementation Services - ServicePac for disk systems - basic (DS3000)
Install and implement one (1) disk system controller and up to three (3) storage units.
Install Storage Manager on one (1) server.
Install IBM host agent software on up to two (2) hosts.
Test and verify the operation of the System Storage disk system.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service: 16 hours

IM014 - IBM Implementation Services - ServicePac for disk systems - basic (DS4000)
Install and implement one (1) disk system controller (any DS4000 systems except DS4800) and up to three (3) storage units.
Install Storage Manager on one (1) server.
Install IBM host agent software on up to three (3) hosts.
Test and verify the operation of the System Storage disk system.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service: 16 hours

IM001- IBM Implementation Services - ServicePac for disk systems - standard (DS4000)
Implement one (1) disk system controller and up to six (6) storage units.
Install Storage Manager on one (1) server.
Install IBM host agent software on up to five (5) hosts.
Test and verify the operation of the System Storage disk system.
Provide up to two of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service: 24 hours

IM015 - IBM Implementation Services - ServicePac for disk systems (DS4800)
Install and implement one (1) disk system controller model DS4800, and up to ten (10) expansion enclosures.
Install Storage Manager on one (1) server
Assist with the installation of the IBM host agent software on up to five (5) hosts.
Test and verify the operation of the System Storage disk system.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction. Document the installation.
Number of hours of Service: 32 hours

IM016 - IBM Implementation Services - ServicePac for disk systems (DS5000)
Review and verify the installation of the DS5000 to ensure readiness.
Update BIOS and drivers of the FC (Fiber Channel) host bus adaptors on up to six (6) hosts.
Implement/update multipath failover driver.
Install the DS5000 Storage Manager on the hosts and one management station.
Create up to six (6) arrays with Logical Unit Numbers (LUNs), create hosts and map LUNs to hosts.
Validate LUN availability on the hosts and test functionality.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction
number of hours of Service, 32 hours

IM002 - IBM Implementation Services - ServicePac for disk systems (DS6000 / DS8000)
Implement one (1) DS6000 or DS8000 using System Storage disk system Storage Manager or the disk system command line interface.
Install SDD and, if needed, device drivers on up to two (2) servers per platform.
Install activation keys, perform disk allocations, volume group creations, adapter configurations and host attachments.
Test and verify the operation of the System Storage disk system.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service: 40 hours

IM003 - IBM Implementation Services - ServicePac for network attached storage systems (N3000)
Implement one(1) N3000 Model A10 or Model A20 for accessibility by up to five (5) hosts each using up to two (2)
Common Internet File System ("CIFS") shares, two (2) Network File System ("NFS") mounts, or two (2)
Internet Small Computer System Interface ("iSCSI") Logical Unit Numbers ("LUNs").
Test and verify the operation of the System Storage network attached storage system.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service: 24 hours

IM004 - IBM Implementation Services - ServicePac for network attached storage systems (N5000/N6000/N7000 filer)
Implement one (1) N5000 or N7000 Model A1x or Model A2x or one (1) N6000 Model A1x or Model A2x and up to twelve (12)
disk shelves for accessibility by up to five(5) hosts each using up to two(2) Common Internet File System ("CIFS") shares, two(2)
Network File System ("NFS") mounts, two (2) Internet Small Computer System Interface ("iSCSI") Logical Unit Numbers ("LUNs"),
or two (2) Fibre Channel Protocol (FCP) LUNs.

Test and verify the operation of the System Storage network attached storage system.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 32 hours

IM005 - IBM Implementation Services - ServicePac for storage software TotalStorage Productivity Center (basic)
Basic implementation -
Implement up to two (2) data agents on supported operating system platform, one (1) fabric agent on supported operating systems and/or devices and one (1) CIMOM agent server for a supported IBM storage device.
Test and verify the operation of the System Storage software.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 32 hours

IM006 - IBM Implementation Services - ServicePac for storage software TotalStorage Productivity Center (plus)
Plus implementation -
Implement up to five (5) data agents on supported operating system platforms, up to two (2) fabric agents on supported systems and/or devices and up to three (3) CIMOM agent servers for a supported IBM storage device.
Test and verify the operation of the System Storage software.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 56 hours

IM007 - IBM Implementation Services - ServicePac for System i (LPAR implementation)
Implement up to four (4) LPARs using the Hardware Management Console (HMC) and partition the hardware (memory, CPU, I/O, peripherals), using the HMC.
Install the System i operating system, i5/OS, on each LPAR.
Test and verify the operation of the LPARs on the System i.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 32 hours

IM008 - IBM Implementation Services - ServicePac for System p (LPAR implementation)
Implement up to four (4) LPARs using the Hardware Management Console (HMC) and partition the hardware (memory, CPU, I/O, peripherals), using the HMC.
Install the System p operating system, AIX, on each LPAR.
Test and verify the operation of the LPARs on the System p.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 32 hours

IM009 - IBM Implementation Services - ServicePac for System x (BladeCenter)
Rack and stack BladeCenter chassis.
Update BIOS and Firmware as required.
Install up to seven (7) blades in BladeCenter chassis.
Install a supported Microsoft operating system or a supported Linux operating system and configure basic networking.
Test and verify the operation of the BladeCenter.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 24 hours

IM010 - IBM Implementation Services - ServicePac for System x (pre-assembled BladeCenter)
Update BIOS and Firmware as required.
Install up to three (3) blades in BladeCenter chassis.
Install a supported Microsoft operating system or a supported Linux operating system and configure basic networking.
Test and verify the operation of the BladeCenter.
Provide up to two (2) of your designated personnel with two (2) hours of basic skills instruction.
Number of hours of Service, 16 hours

IM011 - IBM Implementation Services - ServicePac for IBM Director
Implement IBM Director with one (1) management server and up to two (2) managed systems.

Install and configure IBM Director Server on one (1) supported system and IBM Director Agent and IBM Director Console on up to two (2) supported systems.
Test and verify the operation of IBM Director.
Provide up to two (2) personnel with up to four (4) hours of basic skills instruction.
Number of hours of Service, 24 hours

IM012 - IBM Implementation Services - ServicePac for VMWare for ESX Server
Implement VMWare ESX Server on one (1) supported system.
Install and configure VMWare ESX Server to support up to four (4) virtual machines within a single supported system.
Test and verify the operation of VMWare ESX Server and virtual machines.
Provide up to two (2) personnel with up to four (4) hours of basic skills instruction.
Number of hours of Service, 24 hours

IBM Migration Service for Server & Storage

****Only available in Denmark & Sweden****

Choose one of the three Base Data Migration ServicePacs, which is closest to the required data amount to be migrated
Complement the base ServicePac with 'Additional TB' and 'Additional Servers', if needed. All Servers are to be situated in the same location
A lower size base ServicePac combined with 'Additional TB' ServicePac cannot be equal or higher than the next level base ServicePac
It is NOT possible to use i.e. 2 TB & 2 Servers base pac and 3 units of 'Additional TB' ServicePac to combine a 5 TB project
The maximum project size with Data Migration ServicePac is 10TB. The max number of local Servers is 30. Price include travel and lodging cost

Valid Data Migration ServicePac Combinations:

Valid Data Migration ServicePac Combinations

Migration Project Size	Required Base ServicePac	Optional Additional TB	Optional Additional Server ServicePac
up to 2 TB	2 TB 2 Servers	0	If # of Servers is > 2 (max 38)
3 TB	2 TB 2 Servers	1	If # of Servers is > 2 (max 38)
4 TB	2 TB 2 Servers	2	If # of Servers is > 2 (max 38)
5 TB	5 TB 5 Servers	0	If # of Servers is > 5 (max 35)
6 TB	5 TB 5 Servers	1	If # of Servers is > 5 (max 35)
7 TB	5 TB 5 Servers	2	If # of Servers is > 5 (max 35)
8 TB	5 TB 5 Servers	3	If # of Servers is > 5 (max 35)
9 TB	5 TB 5 Servers	4	If # of Servers is > 5 (max 35)
10 TB	10 TB 10 Servers	0	If # of Servers is > 10 (max 30)

Valid Product /Machine /Type/Model List:

Enhanced Technical Support - Gateway

Enhanced Technical Support - Gateway is a service which complements and enhances the basic IBM support offerings, such as IBM Software Maintenance and IBM Hardware Maintenance, by providing a superior and low-cost proactive support experience.

ETS - Gateway will provide a dedicated Web portal that allows you to access personalized notifications regarding maintenance, security, and performance of your IBM Power System, IBM System i, or IBM System p server, which will help you to maximize your IT availability.

Through the ETS - Gateway Web Portal, you also have access to a dedicated team of IBM specialists who will assist you in the interpretation of the available reports and information and will provide related recommendations.

ServicePac are available through the same Business Partners who sell the related IBM hardware. With these ServicePac, you get an off-the-shelf upgrade solution at the same time you purchase the IBM machine
The number of unique ServicePac part numbers are kept to a minimum with each number supporting a range of machine types. To select the correct number supporting the machine type you can use a selection guide that includes a complete list of machine types with cross-references.
Alternatively, you can find the ServicePac prices and information at:
www.developer.ibm.com/cod/spst/servicepac/extProductSelectorWWW.do

You can order ServicePacs by part number through SAP in the same way that you order your IBM hardware.
The simple registration process ensures that you receive fast and efficient coverage

Remote Technical Support ServicePac (RTS)

ServicePac for System x / Blade 90 day Startup Support

Initial Remote Telephone Support of an individual System x or Blade server and its Server Proven Configuration on questions relating to:
a. Initial set up and configuration support of the IBM System x or Blade Server during the 90 days.
b. Error-free launch of the IBM System x OS (Microsoft Windows server or Red Hat / Novell SUSE Linux only) in the clients environment
c. Remote assistance with the installation of the IBM System x options
d. Support to analyze machine failures to check that the hardware is working fault free, or returning the machine to factory installed defaults
Service does not include assistance for:
1) connectivity issues
2) remote or unattended installations
3) the set up of options not provided by IBM
4) non bundled or non preloaded applications.
5) VMware products (Support Line for Vmware ServicePac available)
6) IBM Director and associated products. (IBM Director Software Support ServicePac available)
7) BladeCenter chassis support. (IBM BladeCenter 180 day Startup support ServicePac available)

ServicePac for System x / BladeCenter 180 day Startup Support

Initial Support of the System x / BladeCenter server and its Server Proven Configuration on questions relating to:

a. Assistance with the set up of the system unit (hardware)
b. Support of Software to error free launch - the system can boot and the pre-loaded software operates error free
c. Assistance with the installation of bundled applications, assistance with the installation of supported options by IBM
d. Information about the Customers system and supplied software
e. Provision of fault analysis support to ensure that the hardware is working fault free or returning the machine to factory installed defaults
f. Advice on where to obtain hardware and/or software updates from the Internet
g. Assistance with basic usage queries on Server Proven Operating Systems and some pre-loaded / bundled software
h. Assistance with the installation, set up and configuration of device drivers
i. Assistance with the set up and installation of drivers and printer software
j. BladeCenter support includes the installed Blades as well as the BladeCenter chassis.

ServicePac for Support Line for Microsoft Windows or Linux

a. Provides a single point of contact for Microsoft Windows or Red Hat and Novell SuSE Software Support
b. Answers 'how to' questions on the Windows Operating systems and Back Office Products
c. Gives customers easy access to our Microsoft and Linux Product Specialists
d. Provides a convenient service with unlimited telephone support calls for the life of the contract
e. Provides 9 x 5 coverage (For customer critical operation problems 24 x 7)
f. Provide consisten comprehensive technical support
g. Complements the total solution provided to the customer
h. Helps reduce downtime and increase productivity
i. Allows the packaging of software support into the HW Sale
j. Resolves customer usage and operational questions and queries

Supported products: http://www-03.ibm.com/services/sl/products/java3.html
Select your country and the WIN - LIN OS product group to see what is supported

ServicePac for IBM Director Software Support

This Service provides a remote telephone based software support action for customers who have either purchased IBM Director for standalone usage or purchased the increased functionality which comes from the Server Plus Pacs sold by System x. The service provides remote assistance with questions pertaining to the installation / setup and configuration of the IBM Director and Server Plus Pac products. With unlimited calls your clients can call as often as needed and received quick and efficient responses

Highlights of the offering include:

- **Software Support focused on the IBM Director product**
- **Access to technical experts**
- **Unlimited calls and unlimited callers**
- **Single point of Contact**
- **Attractivelyn priced, predicatable support costs - one time fee for one year of support**
- **Packaged on a "number of Director Agents" basis**

Supported Products
System x System Software - BIOS / Drivers / Firmware

IBM Director / Systems Director (and future releases) including: Server / Agent / console
Plus: Active PCI Manager / Capacity Manager / Rack Manager / Software Rejuvenation / System Availability / Software Distribution / Remote Deployment Manager

Hours of Coverage (local Country) - 0900 to 1700

ServicePac for Support Line for VMware on System x or BladeCenter - 12X6780-7 & 46D3512-19

The robust, full support offering for customers using VMware in production environments who want an integrated support contract including:
VMware product support, Guest Operating Systems support within the partitions (MS Windows and/or Linux) plus IBM Director support.
a. Provides a single point of contact for questions on VMware / Windows / Linux / IBM Director on System x
b. Answers 'how to' / defect and usage questions on VMware + Windows / Linux and IBM Director
c. Gives customers easy access to our VMware, Microsoft & Linux + IBM Director skills (Windows / Linux / IBM Director skills excluded from Gold and Platinum options)
d. Provides 9 x 5 coverage (For customer critical operation problems 24 x 7) > (Part Numbers 12X6780 to 12X6787)
e. Complements the total VMware solution from IBM by supporting the following:
- ESX Server, VMFS, Virtual SMP, VC Agent, Update Manager and Consolidated Backup,
- High Availability, VMotion, Storage VMotion, VCMS
- Red Hat Linux, Novell SuSE Linux, IBM Director
f. Helps reduce downtime and therefore increase productivity
g. Allows the packaging of software support into the HW and SW Sale
h. Provides defect support
i. Supplements internal staff with IBM's skills in these product areas.
j. Support Line staff have many years of experience in supporting environments from multiple vendors and dealing with multiple escalation-routes to the different vendors (VMware / Microsoft / Red Hat / Novell SuSE) enabling us to provide integrated support.
j. Part Numbers 46D3512 to 46D3519 provide 8x5 (office hours - Monday to Friday support)
k. Highest level of support available within a ServicePac for VMware envrionments on System x / Blade
l. IBM's recommended ServicePac part numbers for VMware support.

ServicePac for Support Line for VMware on System x or BladeCenter - 51J8569-8580

Basic level VMware support within a ServicePac (not sold standalone) only providing support on selected VMware products - no guest OS or IBM Director support.
a. Gold level support provides 9x5 support
b. Platinum level support provides 24 x7 for customer critical operation problems
c. Designed primarily for the pilot phase of a VMware implementation
d. Support for full production environments is best provided by part numbers 12X6780-7 and 46D3512-19
e. Support for VCMS is not included within these part numbers.
Supported products ; http://www-03.ibm.com/services/sl/products/java3.html
Select your country and the VMware product group for the 12X6780-7 and 46D3512-19 part numbers. For the Gold and Platinum options select VMware - Foundation / Standard or Enterprise to see what is supported

ServicePac for Support Line for VMware on System x or BladeCenter - 71Y2797/98 + 71Y2800-2809

Basic level VMware support within a ServicePac (not sold standalone) only providing support on selected VMware products - no guest OS or IBM Director support.
a. Gold level support provides 9x5 support
b. Platinum level support provides 24 x7 for customer critical operation problems
e. Designed primarily for the pilot phase of a VMware implementation
f. Support for full production environments is best provided by part numbers 12X6780-7 and 46D3512-19
g. Support for VCMS is only included with 71Y2797-98 + 71Y2800-01 + 71Y2806-09
Supported products ; http://www-03.ibm.com/services/sl/products/java3.html
Select your country and the VMware product group for the 12X6780-7 and 46D3512-19 part numbers. For the Gold and Platinum options select VMware - Foundation / Standard or Enterprise to see what is supported.

Currently Qualified System x Servers - VMware ESX Server 3.x
Source: VMware Systems Compatibility Guide for ESX Server 3.x (26th March 2008)
http://www.vmware.com/resources/compatibility/search.php?action=base&deviceCategory=server

Purchasing Advice:
When selecting the appropriate ServicePac option to be sold to the end-user customer, match the corresponding Software support ServicePac to the number of Vmware

licences purchased per server.

These ServicePacs are valid for a period of one year or three years from registration.

VMware Editions explained

Foundation / Essentials - covers the products covered under the V3i release *(Foundation)* and vSphere4 *(Essentials or Essentials Plus)* editions of VMware.
Essentials and Essentials Plus require one ServicePac per server.

Standard covers the products included within the v3i or vSphere4 *Standard* editions of VMware.
Enterprise / Enterprise Plus covers the products included within the v3i *(Enterprise)* or vSphere4 *(Enterprise and Enterprise Plus)* editions of VMware.
Enhanced covers the products included within the *Enterprise Plus* edition plus MS Windows / Red Hat Linux or SUSE Linux operating systems within the partitions and IBM Systems Director support,

VirtualCenter Standard covers the VCenter Standard and Foundation editions
VirtualCenter Heartbeat covers the VCenter Heartbeat edition

ServicePac for Support Line for Entry Level Disk Storage

The IBM ServicePac for Support Line for Entry Level Disk Storage Devices provide clients with remote telephone or electronic access to highly skilled specialists for 'how to' and configuration queries on IBM's Entry Level Disk Storage Devices.

We:
- **Provide high quality technical support on the Storage environment.**
- **Supplement our clients internal staff with IBM's support specialists.**
- **Provide fast, accurate problem resolution to assist the clients productivity.**
- **Provide problem ownership through to problem resolution.**
- **Provide unlimited support for the duration of the contract.**

IBM ServicePac for Support Line for Tape Storage Devices

The IBM ServicePac for Support Line for Tape Storage Devices provide clients with remote telephone or electronic access to highly skilled specialists for 'how to' and configuration queries on IBM's Tape Storage Devices.

We:
- **Provide high quality technical support on the Storage environment.**
- **Supplement our clients internal staff with IBM's support specialists.**
- **Provide fast, accurate problem resolution to assist the clients productivity.**
- **Provide problem ownership through to problem resolution.**
- **Provide unlimited support for the duration of the contract.**

IBM ServicePac for Support Line for Midrange Disk Storage

The IBM ServicePac for Support Line for Midrange Disk Storage Devices provide clients with remote telephone or electronic access to highly skilled specialists for 'how to' and configuration queries on IBM's Midrange Disk Storage Devices.

We:
- **Provide high quality technical support on the Storage environment.**
- **Supplement our clients internal staff with IBM's support specialists.**
- **Provide fast, accurate problem resolution to assist the clients productivity.**

- **Provide problem ownership through to problem resolution.**
- **Provide unlimited support for the duration of the contract.**

IBM System x ServicePac : PLET ZS10-0024 + ZS10-0019

Warranty Upgrade + PostWarranty Upgrade + Committed ServicePac Upgrade with 8 Hour FixTime + Remote Technical Support + Implementation ServicePac for System x

Up to 5 years on-site Warranty Upgrade and 1 and 2 years Maintenance Service Upgrade which include IBM keyboard, Mouse, and IBM internal installed options.
Monitors and Flat panels are not covered within these offerings
The 4 hour response are target measures, starting after the PD (Problem Determination) has ended

System x Committed Service w/ 8Hours FixTime: ((CS) for Committed FixTime ServiceLevel)
IBM Onsite Repair, 7 days a week by 24 hours, with a commitment to fix the reported problem within 8 hours.
The 8 hour Fix Time (FXT) is the period of time between the customer's service request registration in IBM's Call Management System and restoration of the failing machine to operational readiness.
For the commitment to be met it's essential that the registration of the ServicePac is carried out and fully completed. In case registration is not completed, the Customer cannot expect to receive committed service and will loose the right to claim penalty for fix time not being met.
This service is available in restricted geographies only, where the following applies:
This service is available within 50Km of Århus and Copenhagen only
This service is available within 120Km of Helsinki, Turku, Tampere and Oulu only
This service is available within 50Km of Oslo only
This service is available within 100Km of Stockholm, Malmö and Göteborg only

IBM Storage ServicePac : PLET ZS09-0239

Warranty Upgrade + PostWarranty Upgrade + Remote Technical Support + Implementation ServicePac for Storage

Up to 5 years on-site Warranty Upgrade and 1 and 2 years Maintenance Service Upgrade which include IBM keyboard, Mouse, and IBM internal installed options.

Monitors and Flat panels are not covered within these offerings

The 4 hour response are target measures, starting after the PD (Problem Determination) has ended
